

FEDERAL OCCUPATIONAL HEALTH

FOH Training Center

The Federal Occupational Health (FOH) Training Center offers a wide range of environmental, health, and safety training for federal employees.

Where are FOH Training Centers?

Headquartered at the Hubert H. Humphrey Building in downtown Washington, D.C., FOH provides training nationwide at regional training centers located in Atlanta, Chicago, Dallas, Denver, New York, Philadelphia, San Francisco, and Seattle.

Are employees required to go to the FOH Training Center to participate in courses?

No. FOH can also provide training at your facility, at one of our conveniently located regional offices, via webinar, or teleconference.

What are some advantages of FOH training?

One of the many advantages FOH training offers is the ability to fully customize training topics and class lengths to suit your agency's unique needs. In addition, FOH uses the latest audio-visual technology and provides space for hands-on training exercises that require physical movement.

What are some of the courses FOH offers?

For a complete list of courses, please visit the Training and Education link on the FOH home page. Below is a representative list of courses.

Safety

- Accident Investigation
